

Airport Management Council of Ontario

The Airport Environment and You

Hello AMCO Members

AMCO recognized the need for a process of consultation and communication regarding the legislative, training, social, environmental and economic frame-work within which the airport industry operates. As directed within the AMCO Strategic Plan 2010-2014, AMCO has decided to renew such an initiative because of its importance and relevance to the industry.

Published four times annually, it is hoped that this e-zine (published in .pdf format) provides one method of delivering such important facts, updates, and general information to the airport industry nationally.

Don't miss your opportunity to advertise in the newest issue of AMCO's new E-Newsletter. Ads must be in a JPEG format and be high resolution, ready for publication.

Advertisement Policy:

All advertisement costs will be invoiced as soon as this form is submitted. If the advertiser does not submit an ad prior to the issued deadlines, the advertiser will not be included in the publication, and will not receive any refund. Should the advertiser wish, they can select a single ad to run in multiple issues, and AMCO will run that ad accordingly.
