

Become our Airport Operations Specialist

Who we are

The Loomex Group is a North American group of companies that provides strategic, operational, and tactical services for clients across Canada and the United States, including airports and aerospace industries, emergency services providers, private corporations, institutions, communities, and all levels of government.

We are seeking an airport operations specialist for Renald Y. Beaulieu Greenstone Regional Airport (CYGQ), with occasional support shifts at the R. Elmer Ruddick Nakina Airport (CYQN). The successful candidate will report to the airport manager and support the day-to-day operations and site safety of the airport.

Both airports are located in the Municipality of Greenstone, Ontario's second-largest municipality. Greenstone is a world-class destination for fishing, hunting, and hiking and has been called "nature's hometown."

Come join our growing team today!

What you'll do

- Execute a work program that follows Transport Canada regulatory requirements and industry best practices regarding emergency response, wildlife management, winter maintenance, and the operation of all aerodrome maintenance equipment
- Operate snow blower and single and tandem axle trucks for winter and summer maintenance activities
- Use of and minor maintenance on chainsaw, hand, and power tools
- Minor and preventative maintenance of airfield electrical systems, including preventative maintenance requirements for the job site

This position is located in the **Municipality of Greenstone.**

All the benefits you're looking for in your career.

Health & wellness programs

Collaborative & inclusive culture

Learning & development opportunities

Attractive compensation

Career guidance

What you'll do (continued)

- Perform minor maintenance of airfield equipment in a safe and professional manner
- Attend and participate in airport training and safety programs
- Perform airfield/runway inspections
- Perform wildlife inspections and control
- Actively participate in the safety management system
- Assist with emergency response and security
- Provide airport advisory services to air traffic and escort persons/vehicles airside
- Refuel aircraft

What you'll bring to the table

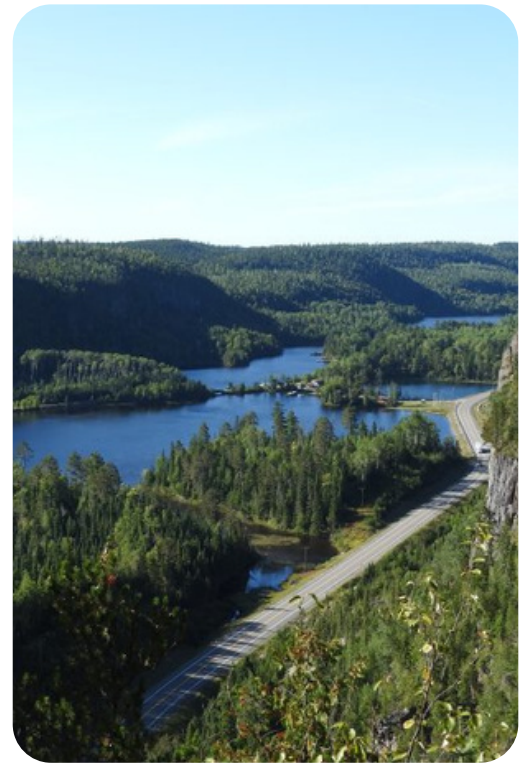

- Grade 12 secondary school education
- Equipment maintenance knowledge
- Communication skills (written and verbal) to respond to customers and to interpret instructions and procedural manuals
- Computer skills
- Ability to analyze situations in order to solve problems effectively
- Ability to work independently or as part of a team
- Clean driver's abstract
- Criminal record check
- This position requires the ability to lift up to 50 lbs. and work standing for an extended period of time

Qualifications considered an asset
