

Carmine Bello, P.Eng  
Vice President Aviation  
WSP Canada

Carmine Bello, National Vice President of WSP Canada's Aviation Division, has over 20 years of experience and has spent his entire career in the field of airport planning and development. Carmine has led numerous airfield planning, design and construction assignments for aprons, taxiways and runways at various airports across the world. Carmine's extensive aviation experience has been gained at airports across Canada including airports in Halifax, Kelowna, Edmonton, Ottawa, Toronto, Waterloo, Winnipeg, Moncton and Hamilton, and internationally in Costa Rica, Turkey, Myanmar, Ecuador and Oman. Carmine currently leads the National Aviation practice for Canada with over 100 full time dedicated Airport consultants.

Of particular interest, Carmine has had over 17 years of direct planning, design and construction experience at the Region of Waterloo International Airport including overseeing the redevelopment of nearly 80% of the entire airside infrastructure. Carmine has developed strong working relationships with the Airport and Regional staff and has a thorough understanding of the vision set forward by the Airport. Carmine has recently led the successful completion of the 2017 Airport Master Plan for the Airport which is currently in the process of being implemented.
