

Maurice Best
Senior Associate Transportation (Aviation & Defense),
Stantec

Maurice is a Senior Associate of Stantec's Transportation Group and leads a multidisciplinary unit that specializes in the delivery of Airport (Airside & Groundside) Engineering project including Military Airfield facilities. Currently Maurice is involved with consulting activities on various projects including projects for Transport Canada, The Bahamas Ministry of Transport and Aviation and Department of Civil Aviation, the Airport Authority of Jamaica, and the Grantley Adams International Airport Incorporated (GAIA Inc.), Government of Barbados.

Mr. Best has particular experience and capabilities in the design and construction of runways, taxiways, and terminal aprons including the procurement, testing and commissioning of passenger boarding bridges. Maurice is currently AMCO (Airport Management Council of Ontario) Board of Director's Business Representative.
