

**Mr. Normand Landry**

*Executive Director North America*

*Explorer Solutions*

A seasoned senior executive and business owner, Normand is a team leader and an experienced program manager with over 35 years' experience in aviation, airport management, air operations as well as with aerospace manufacturing, testing and certification. He has extensive experience in the management of aviation and aerospace projects and programs, planning, business development, risk management, financial arrangements, economic development and government relations.

Normand is a military veteran with 28 years in the Royal Canadian Air Force (RCAF). He began his career as Director of Aircraft Maintenance and retired from the military as the Director General of the National Defence Aerospace Flight test Center (Cold Lake). He has successfully led and managed more than 50 multinational and multi-million-dollar test programs over the course of his career. Over the past decade, he has put his experience to the service of airports across Canada and the US. He has been involved in all aspects of airport developments including passenger volume forecast, market analyses and strategic planning.

Normand is trained as a Project Manager and holds a Bachelor of Mechanical Engineering degree from the Royal Military College of Canada in Kingston, ON as well as a Master's degree in Aerospace from Cranfield University in the United Kingdom. The Executive Director for Explorer Solutions, Normand is responsible for all airport and economic development consulting activities for the company.
