

Olivier Meier  
Manager Data Integration,  
Nav Canada

Olivier joined NAV CANADA in 2010 after having worked for IATA and skyguide (the Swiss Air Navigation Service Provider) for over 15 years. During that period he worked in the area of Air Traffic Management and Air Traffic Control simulations. He is trained as an Air Traffic Controller and has a Bachelor in IT Project Management. At NAV CANADA he started in AIM as a Project Manager on projects such as SNOWiz and the ICAO NOTAM Transition where he got involved in the TALPA working group as one of the co-chairs. He recently accepted a new position as 'Manager Data Integration'.
