

Sam Arabo
Senior Civil Engineer
Transport Canada – Ontario Region

As a Senior Civil Engineer with Transport Canada – Airports and Ports Group, Sam has provided specialist engineering, project management, inspection and monitoring services pertaining to the design, construction, operation, maintenance, alteration, decommissioning and demolition of federal facilities and engineering works.

Sam has been involved in the Airport Capital Assistance Program (ACAP) for the last 15 years, specializing in the technical review of civil projects for Ontario and recently for Atlantic Region airports.
